Plastic Bags Get Banned In NJ

This past Thursday, New Jersey officially banned plastic bags. Here's why plastic pollution is a big problem in New Jersey. It spreads easily and everywhere quickly because New Jersey is surrounded on 3 sides by water. In recent years there has been more than 80% of litter with plastic bags and other plastic. Another reason is a bay keeper estimated that there are about 166 million pieces of microplastics in our waters. Hopefully this will reduce the plastic that ends up in our oceans. Now that you know this, make sure to bring your reusable bags.

New Rides at Fantasy Island

Did you know about the new Fantasy Island rides? They're more than just fun! They're awesome! To start, the new rides are called the Shark Attack and the Summertime Swings. Shark Attack is jaw-some! The ride is mostly used by families and is 6 tokens per rider. You have to be 36-46 inches to ride. However, if you are over 46 inches, you can ride alone. On the other hand, the Summertime Swings are mostly used by kiddies. It is 4 tokens and you have to be 36-59 inches to use the ride. The Summertime Swings is a bunch of fun that will make a kid swing their excitement to another level! The fin-tastic Shark Attack ride and the Summertime Swings are amazing additions to the already amazing Fantasy Island!

Brand New Restaurants on LBI

Hello, this is Riley Brown reporting from the Wave of News and there are a few new restaurants coming to LBI. They are called Rare Company, LBI Table, and Lomito. Rare Company is at 605 Long Beach Blvd. Ship Bottom. LBI Table is at 502 Long Beach Blvd. Ship Bottom, and Lomito is at 13504 Long Beach Blvd. Long Beach. Rare Company has seafood and is a steakhouse so if anyone likes steak and seafood then Rare Company might be a good place to eat. On the menu it shows pasta with fish in it which is one of my favorite dishes, so I'm pretty excited to eat at Rare Company. LBI Table sells breakfast, like pancakes, waffles, eggs and much more. They also sell lunch and dinner. Lomito sells Latin American street food. They sell lunch and dinner such as sandwiches, quesadillas, and tacos. All the people that live in LBI are lucky because we can eat all this amazing new food.

“Happiness Depends On A Black And White Dog With Tints Of Brown” by Ben K.

So much depends upon
A black and white dog with tints
of brown
And long droopy ear under gray
and white blankets with her head
poking out
On a cloudy rainy day snuggling
with her people
On a blue couch
