

Long Beach Island Consolidated School District Curriculum

Grade: 5-6

Content Area: Physical Education

Introduction

Students in 5-6 Physical Education will complete five units that promote developmentally appropriate fitness in both individual tasks as well as collaborative group activities. Improvement of strength, flexibility, and endurance will be encouraged throughout the units. The units will include movement and rhythm, overall wellness, motor skill development, manipulative skills and cooperative games. Understanding of game rules, movement techniques, and strategies to play organized sports will be covered throughout the school year. All Physical Education units follow the NJ Student Learning Objectives. Student progress will be measured in a variety of methods.

Standards/Learning Targets

New Jersey Student Learning Focus Standards:

- **2.5 Motor Skill Development:** All students will utilize safe, efficient, and effective movement to develop and maintain a healthy, active lifestyle.
- **2.6 Fitness:** All students will apply health-related and skill-related fitness concepts and skills to develop and maintain a healthy, active lifestyle.

New Jersey Student Learning Supporting Standards:

- Understanding of fundamental concepts related to effective execution of actions provides the foundation for participation in games, sports, dance, and recreational activities.
- **2.5.4.A.1** Explain and perform essential elements of movement skills in both isolated settings (i.e., skill practice) and applied settings (i.e., games, sports, dance, and recreational activities).
- **2.5.4.A.2** Use body management skills and demonstrate control when moving in relation to others, objects, and boundaries in personal and general space.
- **2.5.4.A.3** Explain and demonstrate movement sequences, individually and with others,

in response to various tempos, rhythms, and musical styles. Ongoing feedback impacts improvement and effectiveness of movement actions.

- **2.5.4.A.4** Correct movement errors in response to feedback and explain how the change improves performance.
- Offensive, defensive, and cooperative strategies are applied in most games, sports, and other activity situations.
- **2.5.4.B.1** Explain and demonstrate the use of basic offensive and defensive strategies (e.g., player positioning, faking, dodging, creating open areas, and defending space).
- **2.5.4.B.2** Acknowledge the contributions of team members and choose appropriate ways to motivate and celebrate accomplishments.

Primary Interdisciplinary Connections:

- Infused within the unit are connections to the NJSLs for Mathematics, Language Arts Literacy, Science
- SL.5.1. Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 5 and 6 topics and texts, building on others' ideas and expressing their own clearly. A. Explicitly draw on previously read text or material and other information known about the topic to explore ideas under discussion. B. Follow agreed-upon rules for discussions and carry out assigned roles. C. Pose and respond to specific questions by making comments that contribute to the discussion and elaborate on the remarks of others. D. Review the key ideas expressed and draw conclusions in light of information and knowledge gained from the discussions.
- SL.5.3. Summarize the points a speaker makes and explain how each claim is supported by reasons and evidence.
- SL.5.6. Adapt speech to a variety of contexts and tasks, using formal English when appropriate to task and situation.

Technology Standards:

- 8.1 Educational Technology: All students will use digital tools to access, manage, evaluate, and synthesize information in order to solve problems individually and collaborate and to create and communicate knowledge.
- A. Technology Operations and Concepts: Students demonstrate a sound understanding of technology concepts, systems and operations
- B. Creativity and Innovation: Students demonstrate creative thinking, construct knowledge and develop innovative products and process using technology.
- C. Communication and Collaboration: Students use digital media and environments to communicate and work collaboratively, including at a distance, to support individual learning and contribute to the learning of others.
- D. Digital Citizenship: Students understand human, cultural, and societal issues related to technology and practice legal and ethical behavior.

Knowledge & Skills

Enduring Understandings:

- Developing competence in locomotor skills is important for efficient and enjoyable play.
- Learning the fundamental techniques related to the performance of locomotor skills is important for participation in games, sports, dance and recreational activities.
- Understand that repetitive practice of new skills learned will enhance one's ability to play.
- Implementing movement principles such as space, speed, force,

Essential Questions:

- Why is learning different ways to move important for participation in physical activity?
- What are the different locomotor skills that one needs during a physical activity?
- How can understanding movement concepts improve my performance?
- How does my use of movement influence that of others?
- How does dance improve our physical fitness?

- **Follow the Leader:** Students will demonstrate changes in time, force, and flow while safely moving in self-space. Teacher will lead the class in “Follow the Leader”. Students will mirror their teacher as they are led through a series of stationary movements in self-space. Teachers may use movements like static stretching, jumping jacks, high jumps, low jumps, marching in place, running in place, etc. to assess the students’ abilities to demonstrate the changes in time, force, and flow. Teacher will also assess the students ability to demonstrate or explain how safety should play a role in these types of movements and activities.
- **Teacher Says:** Students will develop and refine fine and gross motor skills while stationary. “Simon Says”. The teacher will align students so they are all facing forward and have appropriate room to perform in self-space. The teacher will ask the students to first mirror the movements that the teacher is performing while also describing them orally. Movements like bending, twisting, jogging or marching in self-space will be performed. The teacher will then ask the students to only perform the movements that describe if they are prefaced by the term “Simon Says”. As the activity progresses the teacher may use different types of equipment (yarn balls, scarves, etc.) to integrate fine motor skills. Teachers will observe students for the ability to perform the different fine and gross motor skills. Teachers will also observe the students’ ability to demonstrate
