### Choice Program:

The mission of the Choice program is to accentuate the STEM Academy so as to instill a love of scientific inquiry and application and to empower students to pursue learning in an interdisciplinary and contextualized environment. Providing 21<sup>st</sup> century learners with the skills and knowledge necessary for advancement into higher education and the workforce is paramount. Giving students the ability to pursue experience in science, technology, engineering, math, marine, and environmental initiatives at the elementary and secondary (Grade 6) levels aids them to initiate internships while at this level. Our goal is to ensure that students are prepared to make informed choices based on their interests and exposures in the science arena provided in our district. Students are accountable for state content and career technical education (CTE) standards while teachers integrate the skills and knowledge from the core content standards in contextualized learning experiences. Students demonstrate their mastery of the standards in public exhibitions of their learning: marine and environmental events, math and science internships, engineering ROV expeditions, PERCH, MARE, and math integration throughout each module. The STEM Academy community, including students, teachers, parent, and community and post-secondary members, work together to create a positive learning environment. A tone of advancement in knowledge and application of skills permeates the community. Students have an important voice in shaping the learning community.

### Choice Seats Availability

*The purpose of the chart below is to inform parents of Choice seat availability **before** the application deadline on November 30, 2022. **After the deadline, the information will be outdated.***

The Department of Education limits the number of Choice seats that each district can fill. The “maximum number of new choice students that can be enrolled” tells parents how many *new* choice students the district can enroll in the next school year. If more than the maximum number of applications is received, a lottery will be held and a waitlist will be developed. *Waitlists will be developed for all approved choice grades even if no seats are currently available. NA indicates the district is not accepting choice applications for those grades.*

### Maximum Number of New Choice Students that can be Enrolled: 4

School Name: Ethel A. Jacobsen School, LBI Grade School

Specialized Choice Program Name: STEM

Grade	Seat availability per grade*
K	Available
1	Full
2	Available
3	Full
4	Full
5	Full
6	Full

District Choice Policies	
a. The district accepts Tier 2 students (see choice website <a href="#">definitions of Tier 1 and Tier 2</a> and below).	Yes
b. The district gives enrollment preference to choice applicants who have a sibling currently attending the choice district, provided there are choice seats available in the choice-approved grades/programs and the students meet any program-specific criteria.	Yes
c. The district gives enrollment preference to choice applicants who have completed the terminal grade of the sending district (i.e., students who attend a choice district with grades that terminate before 12th grade and have a natural progression to this choice district), provided there are choice seats available in the choice-approved grades/programs and the students meet any program-specific criteria.	Not Applicable
d. The district gives enrollment preference to resident students who move <i>before the application deadline</i> . If resident students move and file choice applications for the following year prior to the deadline, the district will give them enrollment preference (i.e., accept them after the enrollment preference students described in b. and c. above, but ahead of other applicants), provided there are choice seats available in the choice-approved grades/programs and the students meet any program-specific criteria. <i>If the district has already reached its approved choice enrollment maximum, this preference will not apply.</i>	Yes
e. The district gives special consideration to resident students who move <i>after</i> the application deadline. Students in this situation may apply as late applicants and be added to the front of the district's waitlist, provided the students will enroll in a choice-approved grade/program and they meet any program-specific criteria. No additional choice seats above the maximum will be approved by the NJDOE to accommodate these students.	Yes

**Transportation Note to Parents**

***Transportation of choice students is not guaranteed.*** If a student is eligible for transportation (within 20 miles of the school) and the cost will exceed the maximum amount designated in the Annual Appropriations Act, the parent/guardian will be given aid in lieu of transportation and, in some cases, the option of receiving the transportation and paying the additional amount over the maximum. By Aug. 1, parents should receive notification of their transportation options from the resident district. For more information, read the *Choice School Transportation Procedures* found on the [Student Transportation webpage](#).

**Tier 1 students**

*Choice districts must first fill their available seats with Tier 1 students.* If the number of Tier 1 applications exceeds the number of choice seats available, the choice district must hold a lottery to randomly select students. Tier 1 students are students who are enrolled in a NJ public school in their resident school district during the time of application and for the entire year immediately preceding enrollment in a choice district. If a student moved during the school year and attended the resident public school of both his/her prior and current district of residence, he/she is also considered Tier 1. Charter school students are Tier 1. To qualify as Tier 1 for kindergarten, a student must be attending a *state-funded preschool* in his or her resident district or a student resides in a district that does not offer a state-funded preschool program. *Most students applying for kindergarten are in Tier 1.* Choice applicants for kindergarten with a sibling currently attending the choice district will receive enrollment preference, provided the district has adopted a sibling preference policy, as indicated in the District Choice Policies chart above.

**Tier 2 students**

*Choice districts are not obligated to accept Tier 2 students.* If a choice district accepts Tier 2 applicants, they may do so after all the qualified Tier 1 applicants have been accepted. If the number of Tier 2 applications exceeds the number of choice seats available, the choice district must hold a Tier 2 lottery to select students. Tier 2 students include NJ residents who have **not** attended their resident public school for the entire year immediately prior to enrollment in the desired choice district and do **not** otherwise meet the requirements for Tier 1. This includes students who have been attending public school outside their districts of residence or private school.
